**DECLARATION OF INVENTORS**

I hereby declare as follows:

1) I am a named inventor of the invention disclosed in currently pending U.S. Patent Application Serial Number 09/261,209.

2) The invention, entitled "Dual Mode Satellite/Cellular Terminal," was conceived not later than October 27, 1994.

3) An Invention Disclosure was prepared not later than October 27, 1994.

4) The invention was approved for patenting by Ericsson Inc. in February 1995, and the Invention Disclosure was forwarded to Burns, Doane, Swecker & Mathis, the patent counsel working with Ericsson Inc. at that time, on or about February 16, 1995, with a request to prepare and file a patent application.

5) A first draft of a patent application for the invention was prepared by Burns, Doane, Swecker & Mathis, and sent for comments on or about May 31, 1995.

6) A second draft of the patent application for the invention was prepared by Burns, Doane, Swecker & Mathis, and sent for comments on or about June 15, 1995.

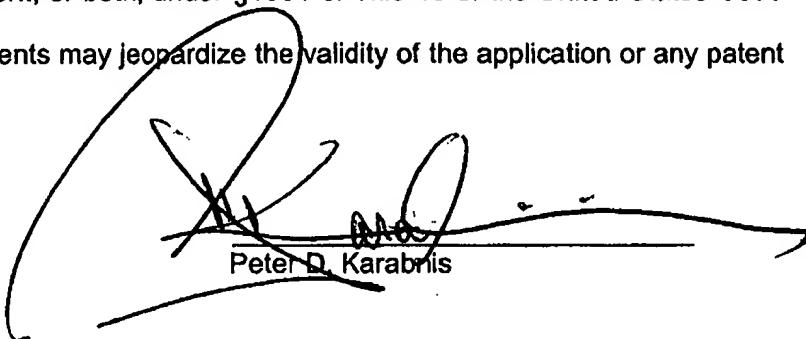

7) A final draft of the patent application for the invention was prepared by Burns, Doane, Swecker & Mathis, and sent for comments on or about July 5, 1995.

8) The final draft of the application was filed with the U.S.P.T.O. on July 12, 1995, receiving U.S. Application Serial No. 08/501,575.

9) The present application, U.S. patent application serial no. 09/261,209, claims priority from the '575 application filed on July 12, 1995 under 35 U.S.C. § 120. The disclosure of October 27, 1994 described the invention that is the subject of the present application.

I hereby declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
